

GREENVILLE COUNTY SCHOOLS  
ADMINISTRATION-RECOMMENDED  
STUDENT ASSIGNMENT PLAN

for the New Fountain Inn High

Hillcrest High

Mauldin High

Board of Trustees

Committee of the Whole

October 8, 2019

Fountain Inn High School  
Hillcrest High School  
Mauldin High School  
Recommended Plan to Populate Fountain Inn High School  
And Reduce Populations at Hillcrest and Mauldin High Schools  
October 2019

The new Fountain Inn High School is in the Long Range Facilities Plan/Capital Improvement Plan (LRFP-CIP) to provide relief for Greenville County Schools' (GCS) two largest high schools, Hillcrest and Mauldin. The recommendation reassigns students from Hillcrest and Mauldin High Schools to the new Fountain Inn High School and reassigns students from Mauldin High to Hillcrest High. The shift in student assignment from Mauldin to Hillcrest was necessary due to the location of Fountain Inn to the south of Hillcrest High, and the location of Mauldin High to the north of Hillcrest.

Both Hillcrest and Mauldin High Schools currently exceed the Board of Trustees' parameter for maximum high school size of 2,000 students as established on December 3, 1990 through its Long Range Facilities Study – Study Parameters. Hillcrest High has 2,190 students and Mauldin High has 2,345. Both schools have continued to increase in student population despite earlier assignment changes away from the two schools to JL Mann, Southside and Woodmont High Schools. Those assignment changes represent approximately 830 high school students today from geocodes that were previously assigned to these two high schools.

The recommended assignment plan for Fountain Inn High School incorporates all of Rudolph Gordon School, resulting in a true feeder pattern that keeps all students together K-12. It also includes a portion of Bryson Middle School that is fed by Fountain Inn Elementary School's assignment area and a portion of Bryson Elementary's assignment area.

The GCS administration's recommendation is to populate Fountain Inn High one grade at a time, beginning with 9<sup>th</sup> grade in 2021-22. Under this plan, all four grades, 9<sup>th</sup> through 12<sup>th</sup>, will be fully populated in 2024-25. The school will be built for 1,000 students initially, with core areas such as the gym and cafeteria sized for 2,000 students so the school can be easily expanded with an additional classroom wing when the need arises.

The administration's recommendation includes an allowance to keep siblings together. Under this plan, current 7<sup>th</sup> grade students in geocodes impacted by this reassignment will be allowed to attend the currently assigned high school so long as they have a sibling already enrolled in that school when the new assignment plan goes into effect in the fall of 2021. This allowance will continue as long as a family has an older student enrolled in the currently zoned high school when the younger sibling begins 9<sup>th</sup> grade. This allows families to remain together at the high school level. Once the initially assigned student graduates, school bus transportation is not provided.

Additionally, the recommended assignment plan provides priority choice for students in geocodes being reassigned from Mauldin High to Hillcrest High. Priority choice means these students will be the first offered available slots through the Change in Assignment process so long as space is available. In the case of Mauldin High, the student population will be capped at 2,000 students based on the GCS Board of Trustees' defined maximum school population size. Priority choice does not override that maximum. Priority choice students do not receive transportation services through GCS.

The majority of the recommended Fountain Inn High School assignment area comes from students previously assigned to Hillcrest High School. This allows space at Hillcrest High School for the assignment of students from Mauldin High to Hillcrest High School. The target to reassign from Mauldin to Hillcrest High anticipates continued growth at both schools, both from larger lower grades and additional new residents moving into the attendance areas of both schools. The remaining students assigned to Fountain Inn High School come from

Mauldin High students assigned to Rudolph Gordon School. Each of the ensuing years since the placement of the new Fountain Inn High School in the LRF-P-CIP has seen continued student population growth and new residential developments throughout the boundaries of Greenville County Schools. One striking area of recent, new, very large residential developments is down Highway 25 and Fork Shoals Road out of the City of Greenville, which today includes over 3,000 approved single-family lots in Southside High's attendance area.

GCS is pleased that the district will be able to offer a comprehensive high school at Fountain Inn High School. Business and industry partners in the area have been instrumental in providing a facility and programs to support high paying jobs in the area. The school will offer career paths in higher education tracks, as well as certification pathways. The school's Institute of Automation and Engineering (IAE), featuring state-of-the-art Automation and Engineering instruction, Computer Aided Design (CAD), dual enrollment pathways, business and industry partnerships and apprenticeships, and other programs, offer students multiple opportunities for exposure to career options.

Over the last few years, the district has increased its focus on graduating students who are college- and career-ready. This focus has paralleled an increase in enrollment at each of our career centers and growth in the number of students graduating with college credits through Advanced Placement (AP), International Baccalaureate (IB) programs, and dual-credit offerings. The number of industry certifications awarded annually to GCS students has also increased from 343 in 2014-15 to 2,112 during the 2018-19 school year. A number of career center programs have been relocated from career centers to high school campuses to offer increased accessibility to our students.

In summary, the recommended student assignment population plan will impact the three schools as follows:

	<u>High School Impact</u>	<u>New Student Population per Plan</u>
Hillcrest High	(502)	1,635
Mauldin High	(435)	1,852
New Fountain Inn High		937

This plan allows space for continued growth from lower grades and new residential growth in both Hillcrest and Mauldin High Schools' attendance areas. As previously noted, Fountain Inn High School is designed to be easily expanded to serve up to 2,000 students when needed.

Student Assignment Proposal  
 (Geocode Numbers with Choice Out)  
 Fountain Inn High School  
 600 Quillen Ave  
 Fountain Inn, SC 29644

School	Program Capacity (1)	Students		% Facility Utilization		% FARMS		% Met and Above				Lots To Go

								Current Geocode 2018-19	Projected Based on Plan	Current Geocode 2018-19	Projected Based on Plan	
Hillcrest	2140	2137	1635	99.86%	76.40%	32.85%	27.28%	86.13%	87.11%	74.95%	77.62%	2134
Mauldin	2211	2287	1852	103.44%	83.76%	23.70%	24.19%	87.55%	87.95%	81.41%	81.95%	585
Fountain Inn	1000		937		93.70%		37.35%		84.26%		72.17%	941

(1) Capacity is based on the Program Capacity from the Long Range Facilities Plan

(2) Math is based on those taking Algebra test

\*Note: Geocode numbers represent actual students residing in the geocodes (with choice out) and are used in planning as Fountain Inn High School's population plan includes reassignment from Hillcrest and Mauldin High schools.

Actual student enrollment at schools is different based on yearly decisions of parents to participate in the district's limited school choice programs and special education placements.

2018-19 actual 15th day student enrollments:

Hillcrest

2190

Mauldin

2345

# Student Assignment

## GLOSSARY OF TERMS

**School District**

All of Greenville County Schools.

**School Attendance Area**

All of the geocodes that make up an individual schools' assignment boundary.

**Strategic Plan**

The Board's priorities for performance: <https://www.greenville.k12.sc.us/About/main.asp?titleid=edplan>

**Geocode**

A geographic area used to manage school assignment at the elementary, middle and high school level. Geocode numbers reflect actual numbers recorded in the district's database.

**LRFP**

Long Range Facilities Plan (<https://www.greenville.k12.sc.us/Departments/docs/planning/cip1903.pdf>)

**Factors**

Board Policy AD lists the eleven factors to be considered.

**FARMS**

The Free and Reduced Meals Program is available to students that apply and meet the requirement to receive meals in school at no charge or at a reduced charge.

**Homebase**

School a student is assigned based on the student's resident address.

**Test Data**

South Carolina and federal laws require end-of-the-year accountability tests for grades 3-8 that are based on state academic standards. South Carolina Palmetto Assessment of State Standards (SCPASS) results in Science in select grades include four scoring levels: Does Not Meet Expectations, Approaches Expectations, Meets Expectations, and Exceeds Expectations. SCPASS results in Social Studies in select grades include five scoring levels: Not Met 1, Not Met 2, Met, Exemplary 4, and Exemplary 5. SC READY results in English language arts and mathematics in grades 3-8 include four scoring levels: Does Not Meet Expectations, Approaches Expectations, Meets Expectations, and Exceeds Expectations. High school End-of-Course-Examination Program includes four subject areas (English 1, Algebra 1, Biology 1, and U.S. History and the Constitution) and five scoring levels: A, B, C, D, and F.

**Rising**

The grade a student will be in for the upcoming school year. A current 4<sup>th</sup> grader is a rising 5<sup>th</sup> grader.

**Change in Assignment School Choice (CIA)**

Students may request to attend a school other than their assigned home-based school and be placed in the CIA lottery. Next year's CIA School Choice lottery window is Monday, November 18, 2019 through Wednesday, December 4, 2019. Space must be available at requested school.

**Magnet Choice**

Magnet Schools that offer a program seeking to attract students (whether the student resides in the school's attendance area or not) with specialized academic disciplines. Applications are scored and students qualifying are ranked in a lottery. Space must be available at requested school.

**Island**

A geocode that is not contiguous (not connected) to a school's main attendance area.

**Feeder Pattern**

The flow of school assignment from elementary to middle to high school.

**15<sup>th</sup> Day Enrollment**

The number of actual students enrolled at an individual school on the 15<sup>th</sup> day of school.

**Core Capacity**

The Media Center, Cafeteria, Toilet Facilities, and circulation space of an educational plant.

**Program Capacity (PC)**

The maximum number of students that a school may serve (excluding portables) depending on offered programs for that particular school as computed based on current teacher staffing ratios.

**Expansion**

An existing school that receives construction updates to increase its capacity.

**Portable**

A free-standing classroom used to serve the students at an overcrowded school.

**# Lots to go (LTG)**

Based on subdivision notifications since 1995, the current number of lots still to be built out.
